

"Boogie Fever"

by Frederick Perren and Kenneth St. Lewis

Boogie fever, got to boogie down
Boogie fever, I think it's going around

I took my baby to the drive-in show
She turned the speaker down
and then she turned on the radio
I watched a silent movie, diggin' funky sounds

She's got the boogie fever
She likes to boogie down
She's got the boogie fever
I think it's going around

I took my baby to the pizza parlor
to get a bite to eat
I put some money in the jukebox for her
You know she ate her pizza dancing to the beat

She's got the boogie fever
She likes to boogie down
She's got the boogie fever
I think it's going around

(All night long, we did the bump, bump, bump)
Yes we did, yes we did, yes we did, yeah
(She kept it going strong) doin' the bump, bump, bump
doin' the bump, bump, bump

I called the doctor on the telephone (doctor, doctor)
Said, "Doctor, doctor, please
I got this feeling rockin' and a'reelin'
Tell me, what can it be, is it some new disease?"

They call it boogie fever
You got to boogie down (just get on down)
Boogie fever, I think it's going around (fever, fever, fever)

(All night long, we did the bump, bump, bump)
Yes we did, yes we did, yes we did
(We kept it going strong) doin' the bump, bump, bump

Everybody's got the boogie fever
Boogie down, get on down, get on down
Boogie fever, I think it's going around
(And around, and around)

(I) I got the boogie fever
(You) You got the boogie fever
(She's) She's got the boogie fever
Everybody's got the boogie fever
